ABOUT IDCOL

Infrastructure Development Company Limited (IDCOL) was established on 14 May 1997 by the Government of Bangladesh. Since its inception, IDCOL is playing a major role in bridging the financing gap for developing medium to large-scale infrastructure and renewable energy projects in Bangladesh. The company now stands as the market leader in private sector energy and infrastructure financing in Bangladesh.

The main goal of IDCOL is to catalyze and optimize private sector participation in promotion, development and financing of infrastructure as well as renewable energy and energy efficient projects in a sustainable manner through public-private-partnership initiatives and to accelerate the economic development of the country.

INVESTMENT AREAS OF IDCOL

1. Physical Infrastructure
IDCOL is the market leader in the private sector energy and infrastructure sector in Bangladesh and involved in structuring and financing of large infrastructure projects. The major investment areas are the following:

- Power
- Telecommunication
- Ports
- Hotel & Tourism
- PPP Projects
- Healthcare & Education

2. Renewable Energy
In its drive towards promoting alternative sources of energy, IDCOL finances projects and programs that utilize various forms of renewable sources. Through startup subsidy, concessionary credit and capacity development support, IDCOL complements the government's mission of generating ten percent of the country's total electricity from renewable sources by 2020. IDCOL's objective is to ensure financial and economic sustainability of the sector with an ultimate goal of commercialization. IDCOL is implementing the following Renewable Program/Projects:

- Solar Home System Program
- Domestic Biogas Program
- Solar Irrigation Program
- Solar Mini Grid Projects
- Solar Rooftop Projects
- Biomass & Biogas Based Electricity Projects

3. Energy Efficiency
IDCOL has recently focused on the energy efficiency sector. Apart from a nationwide Improved Cook Stove Program, its investment under this sector includes the following projects/programs:

- Energy Efficient Brick Kilns
- Energy Efficient Boilers and Industrial Machineries
- Manufacturing of Energy Efficient Components and Appliances
- Improved Cook Stoves Program
- Automatic Brick Kiln
- Energy Efficient Industrial Machineries
- Manufacturing of Energy Efficient Component and Appliances
MILESTONES
